

# 533

## Freestanding and Countertop Sparkling Water Dispenser

Level up your workplace hydration with sparkling water with the 533! A sleek and stylish sparkling water dispenser, the 533 offers cold, ambient, and hot filtered water as well as chilled sparkling through innovative touchless dispensing with temperature-indicating dispenser lights.

---

## Product Details

The 533 features state-of-the-art hygiene technology, including touchless sensor-activated dispensing, antimicrobial surface protection, and glass front panel. The 533 uses ice bank cooling technology to provide a high volume of filtered still and sparkling water, perfect for office kitchens, executive areas, and waiting rooms. The 533 is available as a freestanding machine as well as a space-saving countertop model.

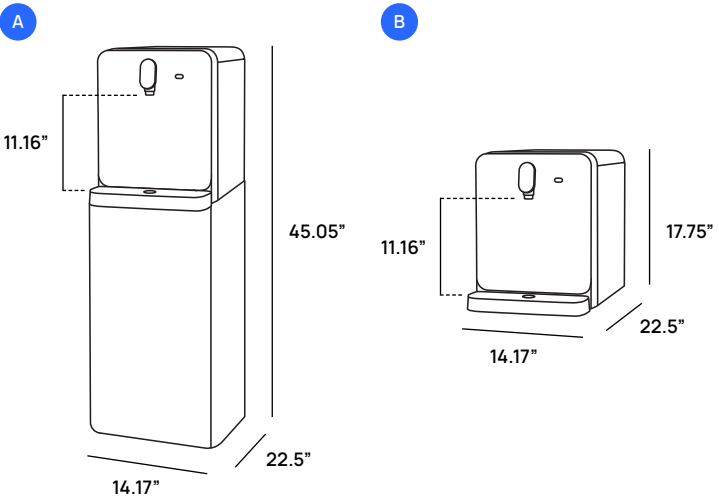

### High-Capacity Sparkling Water Dispenser

- Cold, ambient, and hot water with chilled sparkling water on-demand
- Ice bank cooling technology to keep up with demand
- Hygienic touchless dispensing with temperature-indicator lights and sensor-activation
- Modern, sophisticated design with glass front panel
- Splash-less water flow
- Antimicrobial surface protection to maintain surface cleanliness
- Large 11" dispensing area and drip tray self-diagnostic indicator for low CO<sub>2</sub>
- Available as a freestanding or countertop model

Culligan products are certified by independent authorized 3rd party laboratories in accordance of appropriate industry standards. To find out more about which certification your product may have, please contact us.

All sparkling water dispensers require CO<sub>2</sub> cylinders. If connecting to a bulk or existing CO<sub>2</sub> system, a CO<sub>2</sub> line terminating at a ¼" barbed shutoff valve must be available at the installation site.
